

Rocket U2 Common Clients Hotfix

Version 5.1.0

March 2018

General Hotfix information

This release note contains a cumulative summary of all the Hotfixes made available for a specific Generally Available (GA) product version. Please browse this document to find the Hotfix release that fits your specific needs.

Hotfixes are identified as "Controlled Releases" within Rocket Business Connect (RBC). Hotfixes are only visible by searching for the specific version and build number in the Controlled Release field.

To obtain a specific Hotfix:

1. Log into the [RBC system](#) and modify your existing license.
2. Click **Edit** next to your existing product and then click **Search** to view the list of GA product releases.
3. After the product availability matrix displays, enter in the Hotfix version number (which includes the product version and build number, for example 11.3.1.6005) in the **Controlled Release** field just above the table of product releases, then click **Search**.

The Hotfix release will display on the product matrix and can be selected for ordering and download. If you have questions about RBC, please contact us at rbc@rocketsoftware.com.

Note: Hotfix releases are intended to be short-term solutions and have had limited testing in order to be made available quickly. All Hotfix changes will be included in the next GA release, and will be fully tested by Rocket's Quality Assurance (QA) team across all supported platforms and environments. It is strongly recommended that after taking a Hotfix customers [upgrade](#) to the next available GA release to ensure the highest quality experience.

For questions, please contact support at support@rocketsoftware.com.

Rocket U2 Clients Hotfix 5.1.0.8106

March 2018

This download contains the most recent Hotfix for the previously released product. For questions, please contact support at support@rocketsoftware.com.

Applicable platforms

- Windows

Description of the problem

Issue number	Description
UCC-3615	Prior to this release, a null value was returned to JDBC for the TIME type if the internal value contained decimals. This issue has been resolved.

Installation instructions

1. Extract all files from the U2CL_5.1.0.8106.zip file.
2. Double-click the **AutoRun** option.
3. Follow the wizard prompts.

Rocket U2 Clients Hotfix 5.1.0.8105

January 2018

This download contains the most recent Hotfix for the previously released product. For questions, please contact support at support@rocketsoftware.com.

Applicable platforms

- Windows

Note: You must uninstall any previous versions of UCI before installing this Hotfix.

Description of the problem

Issue number	Description
UCC-3582	Beginning at 5.1.0, the 32-bit version of UCI failed to install correctly. This issue has been fixed.
UCC-3584	Prior to this release, the UCI 32-bit and 64-bit installers were installed to the same location. Beginning at this release, there are separate installation locations for the 32-bit and 64-bit versions. You must uninstall all previous versions of UCI before installing the new version of UCI.
UCC-3592	Beginning at this release, users can run a silent installation for the UCI client.

Installation instructions

1. Extract all files from the U2CL_5.1.0.8105.zip file.
2. Double-click the **AutoRun** option.
3. Follow the wizard prompts.

Rocket U2 Clients Hotfix 5.1.0.8103

October 2017

This download contains the most recent Hotfix for the previously released product. For questions, please contact support at support@rocketsoftware.com.

Applicable platforms

- Windows

Description of the problem

Issue number	Description
UCC-3487	Beginning at this release, UniObjects for Java supports the Java Logging API with some extra U2 Logging information.
UCC-3488	Beginning at this release, UniObjects for Java includes API functions to retrieve available and in-use connection pooling information.
UCC-3514	Prior to this release, the IdleRemoveThreshold and IdleRemoveExecInterval settings did not work as expected in UniObjects for Java Connection Pooling. Regardless of the settings, the thread to remove idle connections would only run every 5 minutes, which is the default value (300,000 milliseconds). This issue has been resolved.

Installation instructions

1. Extract all files from the U2CL_5.1.0.8103.zip file.
2. Double-click the **AutoRun** option.
3. Follow the wizard prompts.

Rocket U2 Clients Hotfix 5.1.0.8102

June 2017

This download contains the most recent Hotfix for the previously released product. For questions, please contact support at support@rocketsoftware.com.

Applicable platforms

- Windows

Description of the problem

Issue number	Description
UCC-3544	Prior to this release, when a U2 ODBC SQL query statement exceeded 4k, the session would abnormally terminate. This issue has been fixed.

Included in this Hotfix

The U2CL_5.1.0.8102.zip file for this Hotfix contains the following:

- U2ODBC_32bit.msi
- U2ODBC_64bit.msi

Installation instructions

1. Extract all files from the U2CL_5.1.0.8102.zip file.
2. Double-click the msi file you want to install.
3. Follow the wizard prompts.

Rocket U2 Clients Hotfix 5.1.0.8101

December 2016

This download contains the most recent Hotfix for the previously released product. For questions, please contact support at support@rocketsoftware.com.

Applicable platforms

- Windows

Description of the problem

Issue number	Description
UCC-3511	Beginning at this release, U2 ODBC supports linked servers in SQL Server 2016.

Included in this Hotfix

The U2CL_5.1.0.8101.zip file for this Hotfix contains the following:

- U2ODBC_32bit.msi
- U2ODBC_64bit.msi

Installation instructions

1. If you have a previously installed version of the U2 ODBC client, uninstall that version before installing this Hotfix.
2. Extract all files from the U2CL_5.1.0.8101.zip file.
3. Double-click the msi file you want to install.
4. Follow the wizard prompts.
